

Dear brother Joe,

March 3, 2009

By these means we want to send a message of gratitude to you, your ministry, your family, and everyone that directly or indirectly collaborated in the donation, transportation, and all other services related to the donation of medical equipment that you so kindly and thoughtfully donated to our Medical Center in Tegucigalpa.

I want to confirm that everything you sent was received in good condition. We were so happy to receive this equipment that we had been anxiously awaiting the arrival to our clinic. We give thanks to God for this donation as well as your good intentions to get this donation here and for the transportation of it.

The equipment has been received. We are working on getting the equipment operating, and we hope that God's hand continues to be with us through this whole process.

We are waiting to see you on your next trip here, so you can encourage us to continue trusting in God in every moment and in everything we do. When you come again, we want you to visit us at the clinic. You can see how we are using the equipment that you donated and how we are providing medical help to the needy people who need medical attention.

Receive from us an affectionate greeting and all of our blessings to you, your family, the donors, and everyone who collaborated with this project, and may God bless all of you from on high as well.

In Christ's Love,

Dr. Mario Edgardo Fonseca Laínez
